gauravyadav49909@gmail.com | [Linkedin](#) | [Github](#) | [Portfolio](#)

OBJECTIVE

Motivated Java Full-Stack Developer with expertise in Spring Boot, React.js, and modern web technologies. Passionate about solving complex problems, building scalable applications, and contributing effectively to collaborative development teams.

TECHNICAL SKILLS

- **Programming Languages:** Java, JavaScript, SQL
- **Frontend Technologies:** HTML5, CSS3, Bootstrap, React.js, Redux, Tailwind CSS, Three.js
- **Backend Technologies:** Spring Boot, Node.js, Express.js, REST APIs
- **Databases:** MySQL, MongoDB
- **Tools & Platforms:** Git, GitHub, Postman, VS Code, Vercel, Render

PROJECTS

Cryptex | Full-Stack Crypto Trading Platform | [GitHub\(Backend\)](#) | [GitHub \(Frontend\)](#) (Feb 2026-Apr 2026)

Technologies: Spring Boot, Spring Security, JWT, MySQL, React.js, Redux, Tailwind CSS, shadcn/ui, ApexCharts , Stripe, RazorPay

- Developed a secure and scalable full-stack cryptocurrency trading platform with separate Admin and User login systems.
- Implemented advanced authentication and authorization features including JWT-based login, email verification, and two-factor authentication (OTP).
- Integrated live cryptocurrency market data, real-time price tracking, and interactive live graphs for better trading analysis.
- Built wallet management features allowing users to add money, withdraw funds, and transfer balance to friends securely.
- Designed and integrated RESTful APIs for user management, transactions, wallet operations, and real-time market updates.
- Added a live crypto news section to keep users updated with current market trends and events.
- Integrated an AI-powered chatbot assistant to help users with trading-related queries and platform guidance.
- Created an admin dashboard to manage users, monitor transactions, and oversee platform activities.
- Built a responsive and modern user interface with smooth navigation and optimized performance across devices.

Vybe | Full-Stack Social Media Platform | [GitHub Repo](#) | [Live Demo](#) (Nov 2025-Dec 2025)

Technologies: MongoDB, Express.js, React.js, Node.js, Redux Toolkit, Render

- Developed a full-stack social media platform inspired by Instagram with features such as posts, reels, stories, messaging, and user profiles.
- Implemented secure authentication using JWT, cookies, and password encryption with bcrypt.js.
- Built core social functionalities including likes, comments, saved posts, and follow/unfollow system.
- Designed media upload functionality for images and videos using Multer with file validation.
- Integrated RESTful APIs and MongoDB for scalable backend architecture.
- Created a fully responsive and mobile-friendly user interface using React.js.
- Deployed the application on Render with complete frontend-backend integration.

Personal Portfolio | Developer Portfolio Website | [GitHub Repo](#) | [Live Demo](#) (Sep 2025)

Technologies: React.js, Three.js, Tailwind CSS, Vercel

- Developed a modern and interactive portfolio website to showcase projects and technical skills.
- Integrated 3D animations and visual effects using Three.js.
- Designed a responsive and accessible user interface with Tailwind CSS.
- Optimized website performance and deployed it on Vercel.

EDUCATION

Bachelor of Science in Computer Science

D.G. Ruparel College, Mumbai University | 2022 – 2025

CGPA: 8.14

CERTIFICATIONS & ACHIEVEMENTS | View all certifications on LinkedIn: [\(click here\)](#)

- Java Full Stack Development Program – IT Vedant Education Pvt. Ltd. (2026)
- Java Fundamentals – IBM Skills Network / IBMCEP (2026)
- SQL and Relational Databases 101 – IBM Skills Network (2026)
- Java (Basic) – HackerRank (2026)
